

Import or Export TestNav Configurations

On this page:

[General Information](#) [Instructions](#)

Search

You can import and export TestNav configurations to easily set up configurations in the system.

Step-by-Step

(Click  to view image)

1. From **Setup**, select **TestNav Configurations**. 
2. Type a configuration name into the search field, and click **Search**. 
3. Click the checkbox next to the configuration. 
4. Click **Select Tasks**, select **Import / Export TestNav Configurations**, and click **Start**. 
5. Click the **Action** dropdown, and select **Import** or **Export**. 
6. Click **Import** or **Export**, as appropriate. 

To avoid a possible timeout, Pearson recommends that you do not import/export over 300 TestNav configurations at a time.
