

View Longitudinal Reports

On this page:

[General Information](#) [Instructions](#)

Feature availability varies by program.

You can view longitudinal reports to compare assessment results and details for student groups across administrations and organizations. These reports provide a way for authorized users to apply filters to compare summary and detailed data.

Available data varies by user role and permissions.

Step-by-Step

Read It

(Click  to view image)

1. From **Reports**, select **Longitudinal Reports**. 
The highest-level organization to which you have access displays. 
2. Select an organization(s) from the dropdown, and click **Apply**. 
 1. To remove an organization, click the **X**. 
3. Select a filter(s) to limit data available. 
4. Click the information icon next to a student name to drill down to more in depth analysis of how the student achieved the scores. 
5. Click **Print** to download a PDF version of the reports. *The PDFs display the filters selected and include only filtered data.*
