

Assign/Unassign a Test

You must assign a student record to a test to place it in a session.

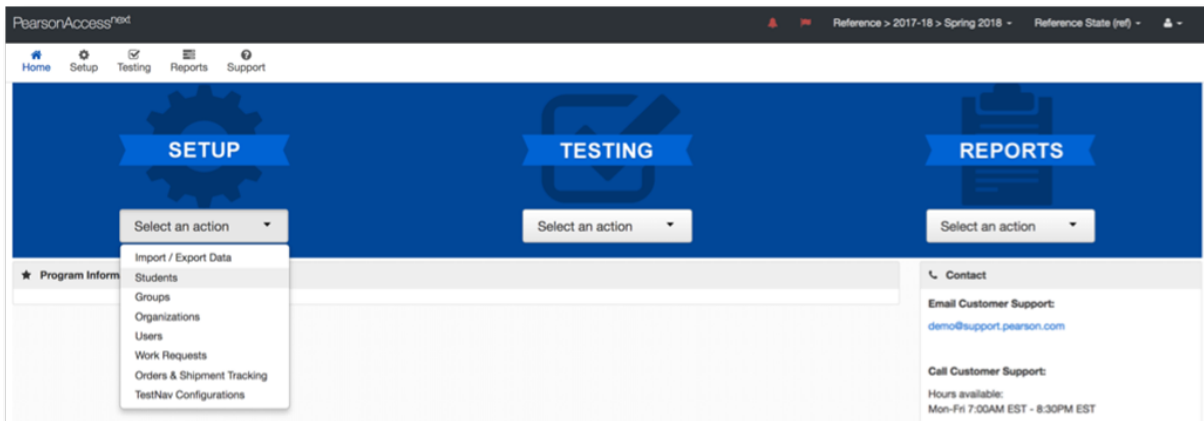

Pearson recommends that you assign a test at the same time that you [Create a Student Record](#) and [Register a Student](#).

Prerequisites

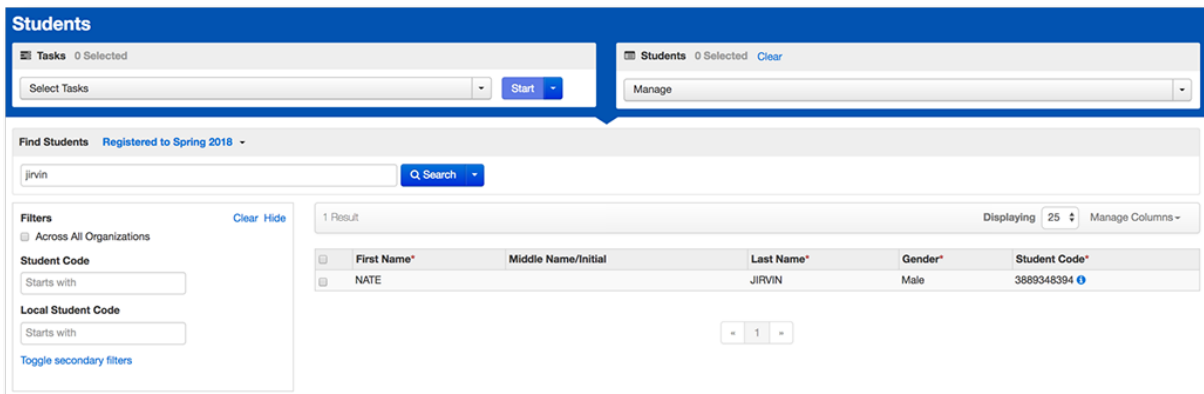

For paper tests, if student data isn't entered through a student registration, you can provide the information on a document as specified by your program. The file can then create the student record within the system.

Step-by-Step

1. From **Setup**, go to **Students**.

2. Type a student name into the search field, and click **Search**.

3. Click the checkbox next to the student.

Find Students Registered to Spring 2018
