

Request Enrollment Transfer

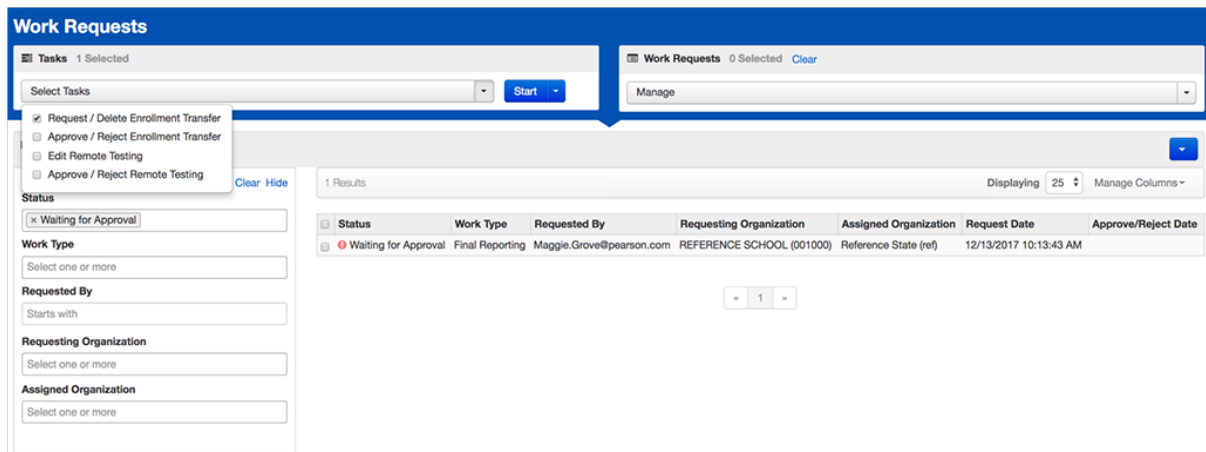

To move a student to your organization/school, you must send a request to the student's current organization/school.

Step-by-Step

1. From **Setup**, select **Work Requests**.

2. Click **Select Tasks**, select **Request / Delete Enrollment Transfer**, and click **Start**.

3. Type and select the student details to search for a student to transfer, and click **Search**.

Effects

If your program is configured to do so, the system sends an email notification to the organization from which you requested the student transfer. All student test information and demographics are visible to your school and not to the original school.

What's Next?

The student's current organization/school must authorize your request. After the organization/school authorizes your request, you receive an email with the transfer status, and PearsonAccess^{next} transfers the student to the requested organization.

If you no longer need to transfer a student:

1. From **Setup**, select **Work Requests**.
2. Click the **Work Type** filter and select **Enrollment Transfer**.
3. Select an enrollment request(s).
4. Click **Select Tasks**, click **Request / Delete Enrollment Transfer**, and click **Start**.
5. Select the enrollment request, and click **Delete**.
