PAsup_SupportedBrowsersforPrecaching

When you click Precache:

Browser	Precache using the Java applet						
Firefox	The Pearson Proctor Cache Applet requests permission to run. Click Run.						
	Number of forms: 3 Total number of content elements: 79 Size: 1,003 KB						
	Click below to start the caching process one)						
	Precache Do you want to run this application?						
	Please note: The number of files shown for processing do not in being cached. The requested forms to be cached have been div number of files being processed and progress is show.						
	Do not show this again for apps from the publisher and location above						
	Wore Information Cancel						
	And then click Precache .						

A message to run the Java add-on is displayed, click Allow, and select either Allow Once or Always Allow. The designated precaching computer (ASFL Middle at 127.0.0.1:4480) is running Pearson-supplied precaching							
software, so this is being used to cache the test content. Number of forms: 3 Total number of content elements: 79 Size: 1,003 KB							
Click below to start the caching process							
Precache							
Please note: being cache number of fil	Please note: The number of files shown for processing do not necessarily represent the number of Sessions, Tests or Forms being cached. The requested forms to be cached have been divided up into separate files for more efficient processing. The number of files being processed and progress is shown.
