Student and Registration Reports

Students are the test-takers within an organization. Student data refers to student demographic data and test-related information. You (or another authorized user) must enter student data into the system before you (or another authorized user) can assign students to an online or paper test.

To learn how to manage students, see Manage Students.

Report Name	Report displays...	Report Parameters	Field Names
Do Not Report Tests	Completed student tests that are set to Do Not Report and the reasons for not reporting	• Organization • Test • Exclude Unsubmitted Tests	• Organization • Organization Code • Parent Organization • Parent Organization Code • Student Code • Student Name • Do not Report Reason • Test • Clip UIN • PreID Barcode • UUID
Irregularity Detail	Student tests irregularities	• Organization • Test Admin	• Student Code • Last Name • First Name • Middle Name • Local Student code • Test • Organization Name • Organization Code • Session Name • Status • Type • Irregularity Date • Reason Label • Reason code • Comment
Irregularity Summary	Irregularity reason counts by organization and test	• Organization • Test Admin	• Organization Name • Organization Code • Test Name • Reason • Number of Irregularities
Not Tested Student Tests	Student tests marked as Not Tested	• Organization • Test Administration • Test	• Organization Name • Organization Code • Parent Organization Name • Parent Organization Code • Student Last Name • Student First Name • Student Code • Did Not Test Reason • Test • Clip UIN • PreID Barcode • UUID • Student Test Status

PreID Barcodes Generated but no longer Used	Generated PreID barcodes that are no longer in use, records have been previously deleted	• Organization • Test Admin	• PreID Barcode Number • Organization Name • Class Name • Student Code • Student First Name • Student Last Name • Student Middle Name • Student Local Code • Student Grade • Student Registration Grade • Gender • DOB • Test • Student Registration UUID • Student Test UUID
