

# View or Edit a Transcend Test

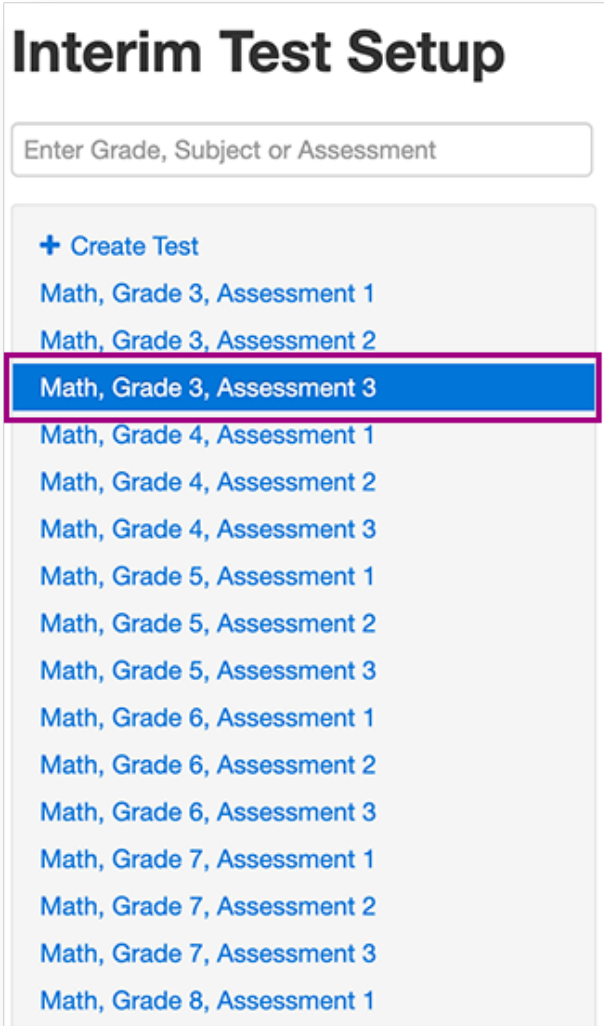

Depending on your permissions and test administration, you can view and/or edit a Transcend test from within your assessment management system.

## Prerequisites

Review your district's finalized scope and sequence or curriculum map to select the standards you want the test to measure.

## Step-by-Step

1. Select a district.
2. Go to your assessment management system's **Tests** or **Testing Config > Interim Testing** section.
3. Click a test in the test list, or first, enter search criteria into the search field.

*The intelligent blue print (ITB) appears. You can click the info icon at the ITB's top-right to show info icons for each standard, and then click an icon to review each specific standard.*

If students have not begun testing using the ITB, options to click additional standards, **Close Blueprint**, **Review Blueprint**, and **Delete** appear. If these options do not appear, you cannot edit or delete the ITB.

4. Click standards to remove them, and click **Review Blueprint**.

- You can also click **Close Blueprint** to discard changes or **Delete** to delete the entire ITB.

Transcend tests are cumulative so you can select only new standards taught for that instructional unit. The system automatically includes previously taught standards that are eligible to be on the test.
