

### Assigning Resources to Students

*Audience: Teachers*

In Schoolnet, teachers have the option to assign resources to students. This document describes how to create a student resource, search for student resources, assign materials to students, and access assignment information.

### Creating a Resource for Students

*To create a resource for students:*

1. In the navigation sidebar, click **Instructional Materials**
2. From the Create menu at the top right, select **Resource**
3. Click **Go**
4. Select a subject and grade range, and then click **Select Standard Alignment**
5. Select one or more standards sets
6. Search by ID, keyword or browse to locate one or more standards to align; selected standard appear in the right column

7. Click **Save and Close**

8. Add a title and description
9. For Duration, indicate the approximate time it will take students to complete this assignment
10. Indicate the format of the resource
11. On the Define Properties tab, complete the required (\*) fields
12. Under For Students, select **Yes**
13. Under Content add to any of the following:
  - Text-based Content – click a section from the pre-defined one(s) listed or click Add your own custom section
  - Attachments – browse for and attach one or more files
  - Website Link – Point to the URL of an existing resource
14. Under Organizers, check all that apply
15. Click **Save**

### Searching for Student Resources

Your district may make resources for students available to you.

*To locate resources for students:*

1. In the Instructional Materials menu, select **Find Materials**
2. Click **Search**
3. To limit the results to resources for students, under Intended Audience, select **For Students**

On some sites, materials will be organized by source, as shown by the tabs below. Each tab indicates how many materials match the current filters.

- To assign the resource, click **Assign**

## Assigning Resources to Students

Resources you create or save from the materials bank are located in My Materials, where you can assign resources to students in one or more of the sections you teach.

To assign a resource:

- In the Instructional Materials menu, select **My Materials**
- Next to the resource name, click **Assign**
- Enter a due date for the assignment

# Assigning Resources to Students

To see a list of all your assignments, follow these steps:

1. In the Classroom menu, select **Assignments**
2. Filter by section to search for the assignment

If you assigned a resource to multiple sections, click **Sections assigned** to see the list of sections.

If you assigned the resource to one section, you will see the section name.

3. To update an assignment, click **Edit** next to the material name  
Keep in mind that clicking Delete removes the assignment, but not the resource.

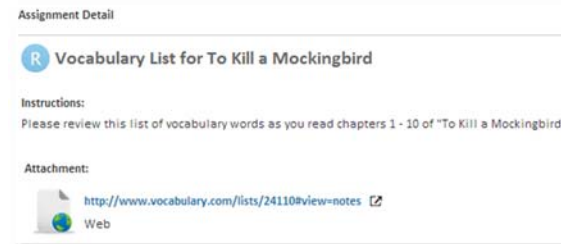

## How Students Access Assignments

When a student signs in to their Schoolnet home page, he or she sees a section labeled 'Upcoming Assignments'.

The home page can display up to five assignments.

Students will click **Open** to view a link to the resource and any instructions from the teacher.

To view all of their assignments by week or day, students click **View Assignment Calendar**. Students can filter by class, navigate to another week, or use the calendar to jump to a specific date. Dates with assignments due are highlighted in bold on the calendar.
