

TestNav 8 - Florida

TestNav 8 Online Support

TestNav 8 is the online test delivery system Florida uses to administer NGSSS assessments.

- [Accessing TestNav 8](#)
 - [Before Testing](#)
 - [During Testing](#)
- [Florida Policies - TestNav 8](#)

Accessing TestNav 8

To access TestNav through a browser, [download Firefox ESR 52](#), and use this URL: <http://fl.testnav.com/>.

To download TestNav apps, see <http://download.testnav.com/>.

To set up your testing environment, see [Set up and Use TestNav](#).

Kiosk mode prevents students from accessing any other web pages or applications besides TestNav while testing.

Using TestNav 8

To use TestNav 8, perform these tasks.

Before Testing

- Check the [TestNav System Requirements](#) to determine whether your testing systems are suitable. Currently, Florida is using TestNav 8.9.
 - Run App Check to help to ensure devices and operating systems meet system requirements.
- Read the [ProctorCache Overview](#).
- Check the [ProctorCache System Requirements](#).
- [Set Up and Use ProctorCache](#).
- Review [Set up and Use TestNav](#)
- Cache your test content using [PearsonAccess](#). See the [PearsonAccess](#) documentation for instructions.

During Testing

- [Understand the System Layout](#)
- [TestNav Troubleshooting](#) - includes information about error codes, log files, saved response files (SRF), and the Early Warning System (EWS).

Florida Policies - TestNav 8

All schools are required to use [ProctorCache](#).

Each computer/device must run an [Infrastructure Trial](#) to ensure it has been set up correctly.
