Types of Tests	What this means	Change attributes (mode of test-paper/online, PNP, Do Not Report) per Portion	Units are Visible in Session Mgmt	Multiple Units to a test
Standard	A test that is scored and reported on its own and not related or dependent on another test.	Yes	No	No
Non-strict battery	A multi-unit test that can have different attributes assigned to each unit. The units can be delivered at different times/places, but are combined to provide a single score.	Yes	No	Yes
Strict battery	A multi-unit test that has the same attributes assigned to all units. The units are typically delivered over multiple days and at different times, but all are managed within a single session and are combined to provide a single score.	No	Yes	Yes
