Search

You can delete a group to remove the virtual student grouping assigned to a group. This deletes test data for completed test administrations.

## Prerequisites

Before you can delete a group, you must first remove all student tests from the group.

## Step-by-Step

### Read It

(Click  to view image)

1. From **Setup**, select **Groups**. 
2. Type a group name into the search field. Select the group(s) you want to delete. 
3. Click **Select Tasks**, select **Delete Groups**, and click **Start**. 
4. Select the checkbox next to the group(s) that you want to delete. 
5. Click **Delete**. 

## Effects

After you delete a group, you cannot restore it.
