

Sign In to TestNav through Student Portal

Student Portal provides single sign-on (SSO) access to TestNav for students. With SSO, students can quickly navigate to their assigned tests and begin testing. *If your school uses **Student Portal***, student email addresses were previously entered into Pearson Access (either through a data import or data creation) to give each student portal access.

Step-by-Step Access for Students

1. Go to the **TestNav** home page in one of two ways:
 - **Recommended** - Click (or tap) the **TestNav** app icon. If you have not downloaded the TestNav app, see [Access TestNav on your Home Computer or Device](#).
 - *If you must access TestNav through a browser*, go to home.testnav.com (*ONLY supported for non-secure, interim or practice tests*).
-

2. Click (or tap) **Student Portal**.

3. Select *your school district* from the **Please select a customer** dropdown, and click **Continue**.

4. Click your school district's button.

5. Enter your username and password to sign in. Click **Start test** to begin an available test.
You can also navigate through other elements of the Tests page. See callouts below.

5a - You can click a **Start test** button to begin that test. Below each test name, the due date appears, if applicable.

5b - If you have any tests that you did not complete, but can resume, a note appears, reminding you to ask your teacher to resume it.

5c - You can click the **Refresh** button after your teacher resumes your test to see the **Start test** button for the resumed test.

5d - The **Completed Tests** list shows tests that you completed and the date you completed them.

5e - You can click the user dropdown and select **Log Out** to log out of Student Portal.

After you start a test...

Student Portal does not sign you out unless you click the user dropdown and select **Log Out** or if you close *TestNav*.

If you do not actively move or click your mouse for an extended time, an inactivity error appears and takes you back to the *Tests* page. You may see a note for that test, indicating that your teacher must resume your test (see 5b above).
