

TestNav 8 Online Support

COVID 19 - INSTRUCTIONS FOR PARENTS OF VIRTUAL LEARNERS

If your child's school directs you to do so, click the link below to install TestNav on your home computer or device.

[Access TestNav on your Home Computer or Device](#)

TestNav 8 Online Support provides system requirements, instructions for setup, troubleshooting steps, and information on features and demos.

The Getting Started checklist below outlines the high-level process for setting up your TestNav testing environment. Click the links within the steps for detailed instructions. You can also download a printable PDF of this page by clicking **Tools > Export to PDF**.

The user guide was created for online use. For the best reading experience and the most up-to-date information, we recommend using the online version.

If you are experiencing an issue with TestNav, [locate your error code and SRF and log files](#) before you contact Pearson Support.

Getting Started

1. Review [TestNav System Requirements](#) and firewall/port settings for testing devices.
2. If using ProctorCache, review [ProctorCache System Requirements](#), and then install ProctorCache on designated proctor caching computers.
 1. Pre-cache test content through your assessment management system. *Your program should provide instructions for pre-caching test content.*
3. Complete infrastructure trial in each testing lab using a practice test. *Your program should provide instructions for setting up a practice test through your assessment management system.*
