View Scan of Test Paper

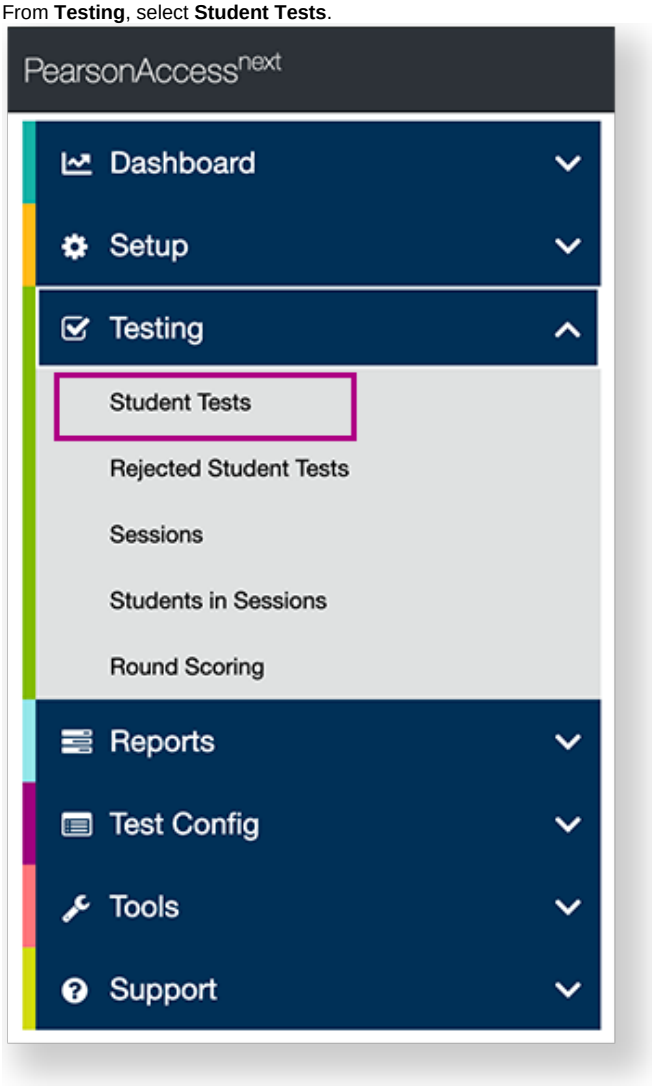

Depending on your testing program's specifications, you may be able to view paper test scans after the paper test is processed. After these scans are created, you can download PDF files.

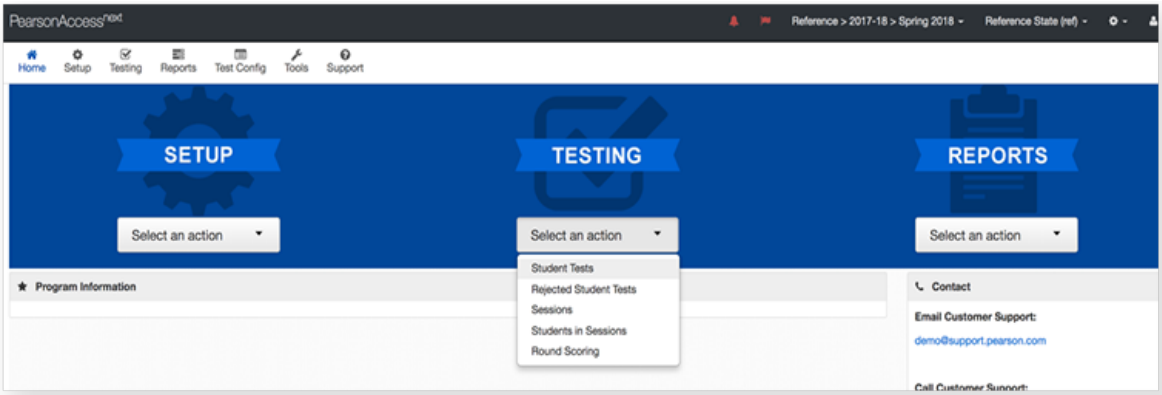

It may include the:

- Entire test booklet.
- Demographic information only.
- Performance item (handwritten) responses only.

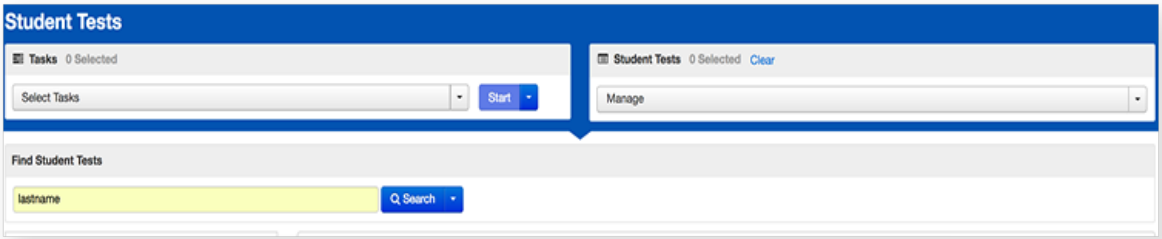

Step-by-Step

1. From **Testing**, select **Student Tests**.

2. Type a student name into the search field, and click **Search.**

3. Click the PDF link in the student's row. *Column and document names vary by program.*
