Manage Messages

You can create and post messages related to your programs on the homepage. You can indicate message priority and duration for these messages.

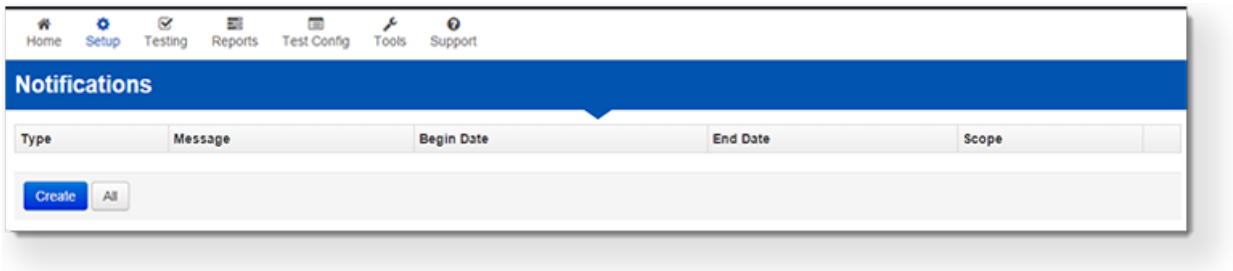

- **Urgent** - Critical. Requires immediate attention.
- **Important** - Significant information. Should be read, but not critical.
- **Informational** - General communication related to your program.

Step-by-Step

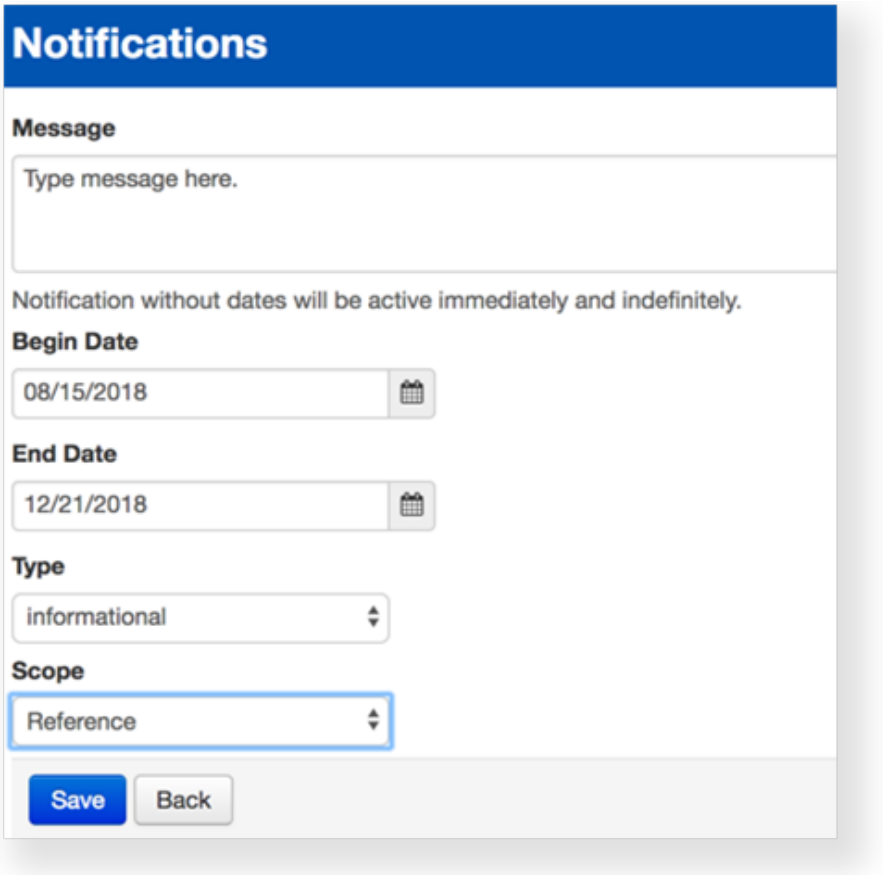

1. From **Setup**, select **Notifications.**

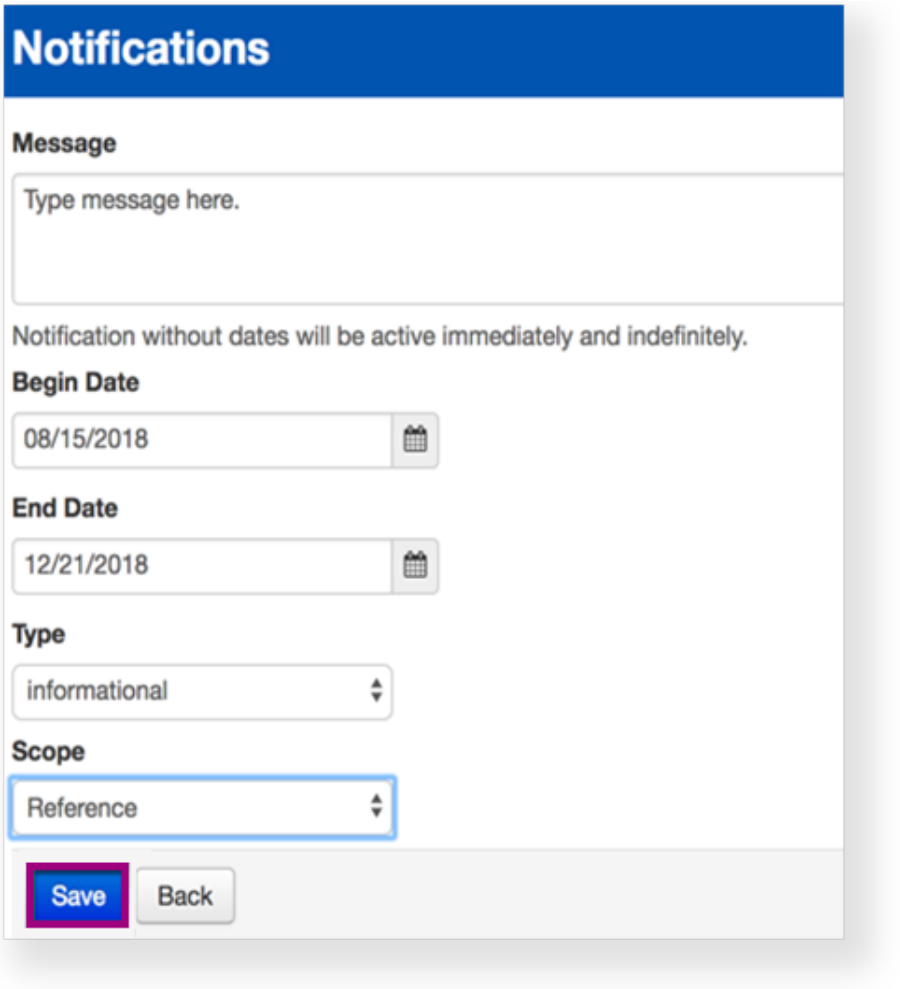

2. Click **Create.**

3. Type/select the details.
