# View Learning Resources

You can view the Learning Resources two ways, as shown in the sections below.

View by Subject and Grade

To view the available learning resources, follow these steps:

1. From the home page, click a Subject Grade icon.

   - Alternatively, from the menu bar, click the **Learning Resources** tab to view available resources. You can also search for available resources using Basic or Advanced Search.

2. To view a resource:
   - Click the resource link, or
   - Click the Information icon next to the resource link, and then click **Resources**.

View by Assignment ID or Learning Locator

To view the available learning resources, follow these steps:

1. From the home page, enter the Assignment ID or the Learning Locator. Click **Go**.

Assignment Sheet / Learning Locator Code

If you already have an Assignment Sheet / Learning Locator Code, you can enter it here.

[ ] Go

2. A list of resources for the assignment displays. Click the resource link to view details.

Resources for Learning Locator: M3048

Grade 3 Math - Number Sense

Number Sense 23	**Name (ID)**
	One False Move (10073)
Geometry and Measurement 22	Patterns with 10 (10969)
Computation 32	Tens and Ones (write number two ways) (11106)
Algebraic Thinking and Data Analysis 21	Tens and Ones (write number two ways) w/key (12955)
Mathematical Process 25	Tens and Ones (11107)
	Tens and Ones w/key (12956)

Color Key

- Did not pass
- Pass
- Pass+

Understanding Fractions to Fourths I (11380)

Understanding Fractions to Fourths I w/key (13470)

Related Information

- Learning Resources are study materials generated to meet student's learning needs. Learning Resources are classified by subject and grade. Through Assignment ID or the Learning Locator, students and their families can view the learning resources assigned to them.
- The Learning Locator is a code tied to student's test performance and the resources generated to meet student's learning needs.
