Assign Users to Groups

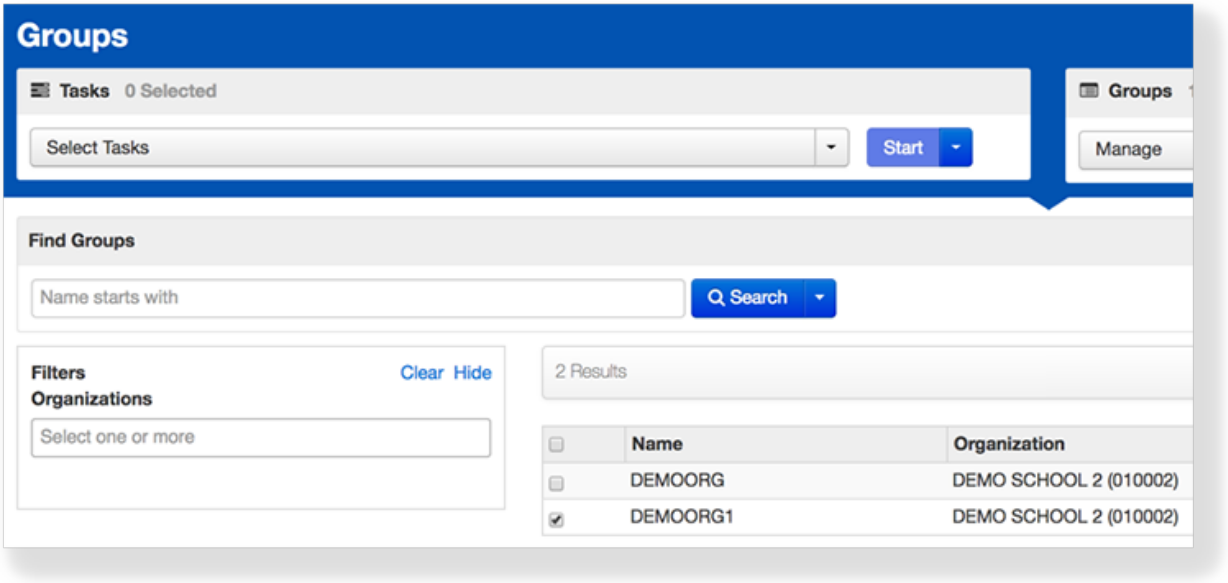

You can assign users to a group to limit who can access the student data tied to the group.

Step-by-Step

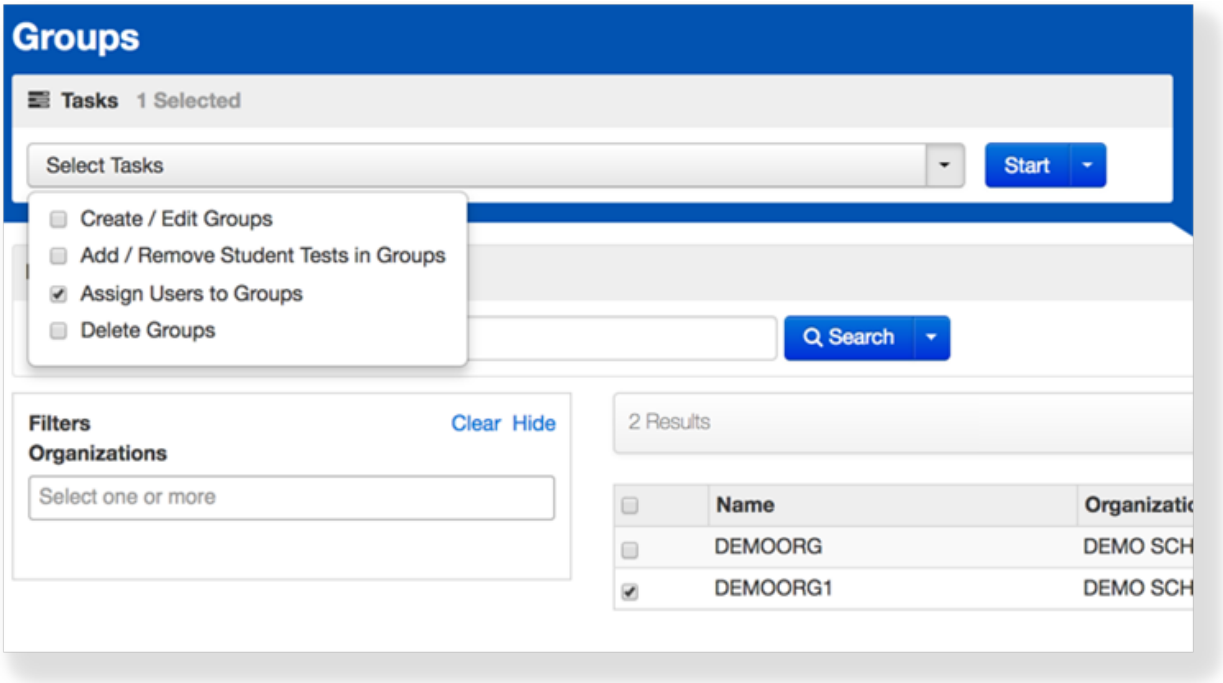

1. From **Setup**, select **Groups.**

2. Click the checkbox next to the group.

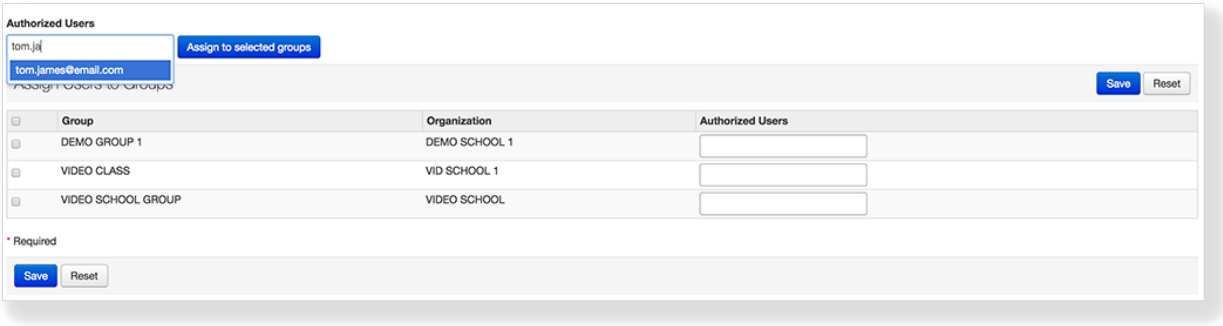

3. Click **Select Tasks**, select **Assign Users to Groups,** and click **Start.**

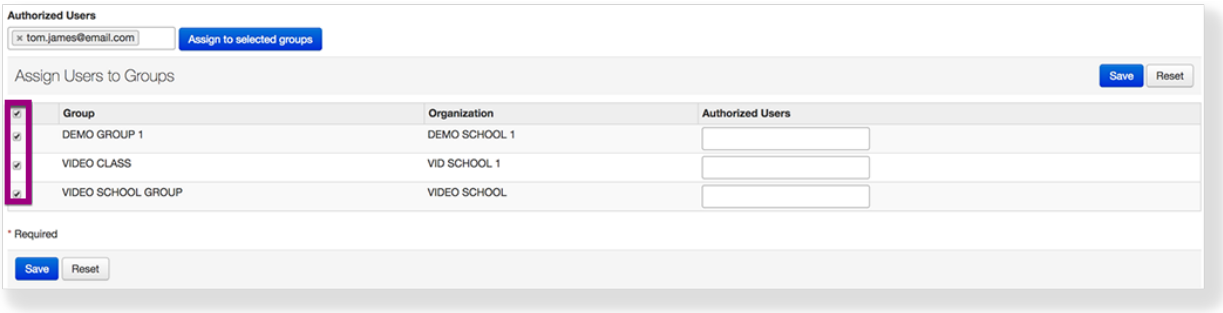

4. Assign the user to either multiple groups or a single group.

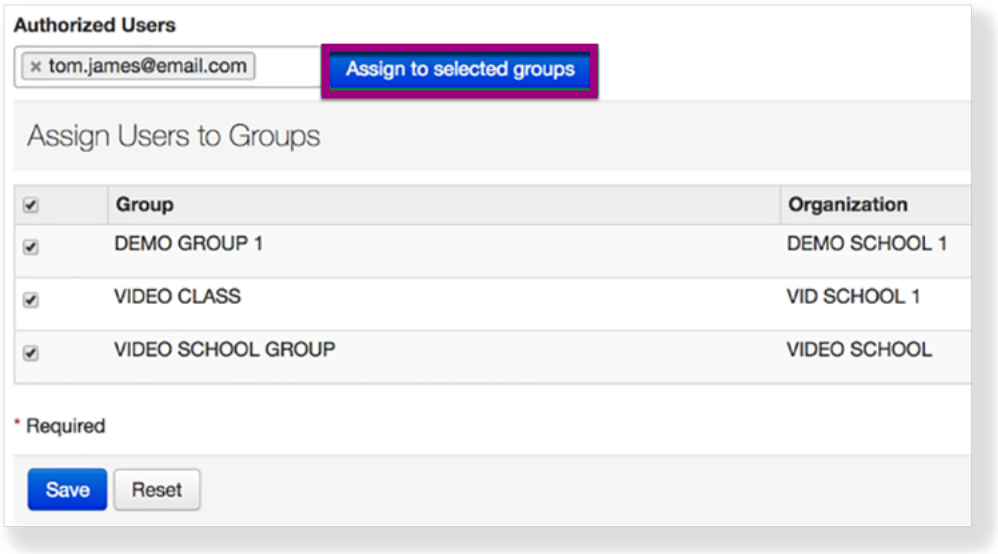

5. Type a user's name into the **Authorized Users** search field**.**

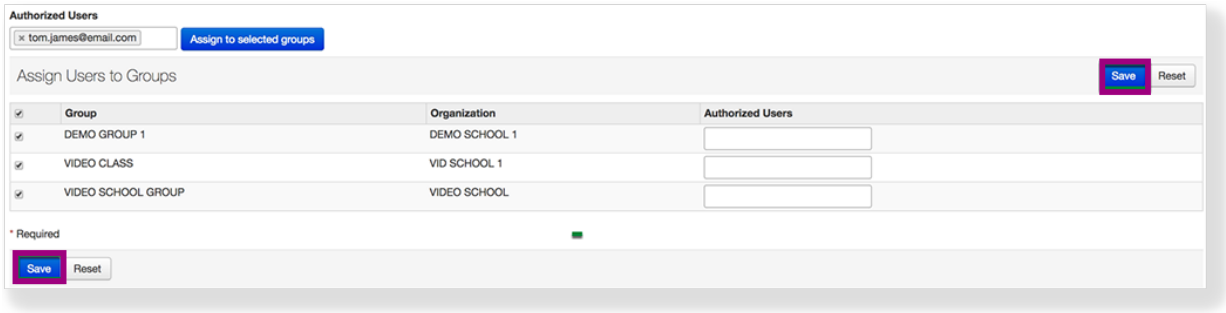

6. Click the checkbox next to the groups.

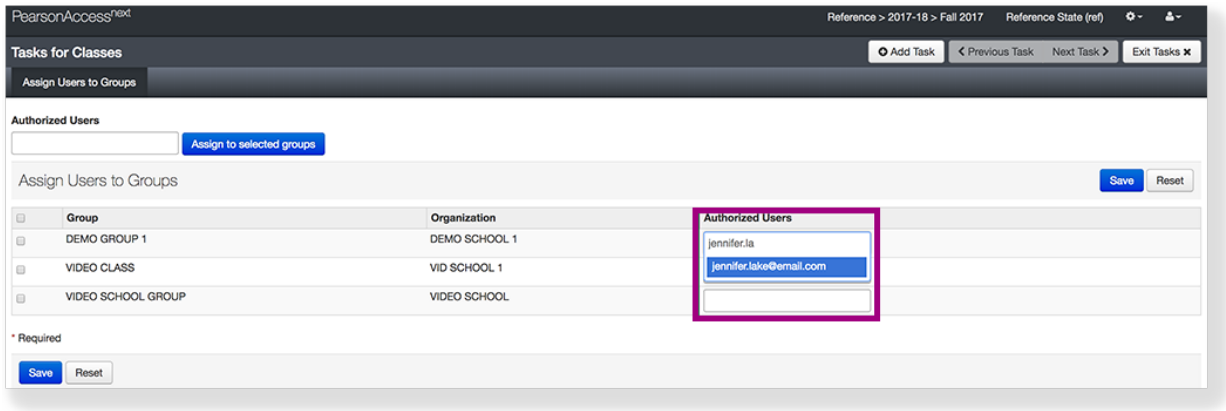

7. Click **Assign to selected groups**.

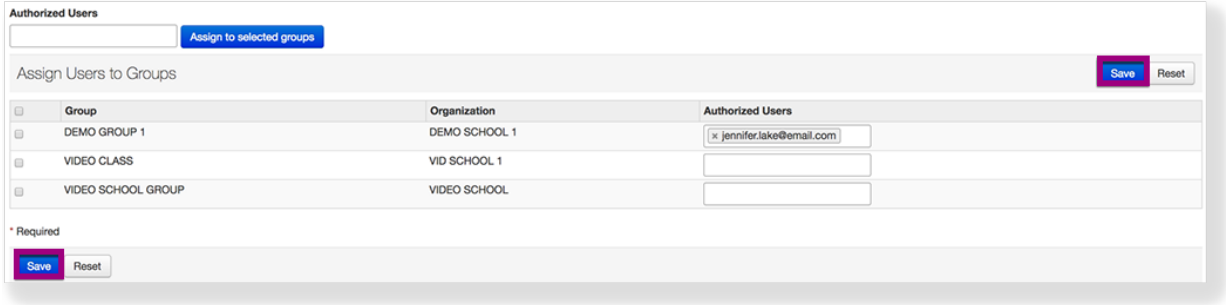

8. Click **Save**.

5. Type a user's name into the **Authorized Users** search field next to the group**.**

6. Click **Save**.

What's Next? (Optional)

To remove a previously assigned user from a group, click the **X** next to the user's name and click **Save**.
