

_PAsup_StudentStatusTable

This list shows the available student test statuses and describes what each means.

Student Test Status Key	
	Ready
	Resumed, Resumed Upload
	Active
	Exited
	Completed, Marked Complete

Status	Description
Ready	The student has not yet started the test: If a student was assigned a test, but never started the test, they would have a status of Ready. <i>A test session cannot be stopped until students in Ready status have either been removed or marked complete so that all students in the session have a status of Complete or Marked Complete.</i>
Active	The student has logged in and started the test. <i>If the student exits the test and the status is Active, the student cannot resume testing unless the status is changed to Resumed Upload.</i> To resume a test, click the Active drop-down and select Resume Upload.  Resumed Upload status forces TestNav to check for a saved response file (SRF) on the testing machine when the student logs back in to continue.
Exited	The student has exited TestNav but has not submitted test responses. <i>The student cannot resume testing unless the status is changed to Resumed.</i> To resume a test, click the Exited drop-down and select Resume.  The Resume status uses only the test data last sent to the Pearson server rather than data saved on a specific testing machine. For more information on resuming, see Resume a Test. <i>If the student will not resume testing for any reason, then the status must be changed to Marked Complete, as described in Mark Student Tests Complete.</i>

Resumed	The student has been authorized to resume the test, but has not yet logged in. To resume a test, click the Resumed drop-down and select Resume Upload.  The Resume Upload status forces TestNav to check for a saved response file (SRF) on the testing machine when the student logs back in to continue.
Resumed Uploaded	The student has been authorized to resume the test, but has not yet logged in. To resume a test, click the Resumed Upload drop-down and select Resume.  The Resume status uses only the test data last sent to the Pearson server rather than data saved on a specific testing machine. For more information on resuming, see Resume a Test.
Completed	The test has been submitted by the student through TestNav and the data has been processed. This status cannot be changed, except by using Undo Student Test Submission.
Marked Complete	The student has exited TestNav and will not resume the same test, or has never logged in to a test, but the test session needs to be stopped. This status cannot be changed, except by using Undo Student Test Submission. Mark a test Marked Complete, as described in Mark Student Tests Complete.

To see **Student Test & Item Progress**, click on Student Test Status (all, except the **Ready** status).
