Status	Description
Ready	<p>The student has not yet started the test: If a student was assigned a test, but never started the test, they would have a status of Ready.</p> <p><i>A test session cannot be stopped until students in Ready status have either been removed or marked complete so that all students in the session have a status of Complete or Marked Complete.</i></p>
Active	<p>The student has logged in and started the test.</p> <p><i>If the student exits the test and the status is Active, the student cannot resume testing unless the status is changed to Resumed Upload.</i></p> <p>To resume a test, click the Active drop-down and select Resume Upload.</p>  <p>Resumed Upload status forces TestNav to check for a saved response file (SRF) on the testing machine when the student logs back in to continue.</p>
Exited	<p>The student has exited TestNav but has not submitted test responses.</p> <p><i>The student cannot resume testing unless the status is changed to Resumed.</i></p> <p>To resume a test, click the Exited drop-down and select Resume.</p>  <p>The Resume status uses only the test data last sent to the Pearson server rather than data saved on a specific testing machine.</p> <p>For more information on resuming, see Resume a Test.</p> <p><i>If the student will not resume testing for any reason, then the status must be changed to Marked Complete, as described in Mark Student Tests Complete.</i></p>
