

View Longitudinal Reports

 Feature availability varies by program.

You can view longitudinal reports to compare assessment results and details for student groups across administrations and organizations. These reports provide a way for authorized users to apply filters to compare summary and detailed data.

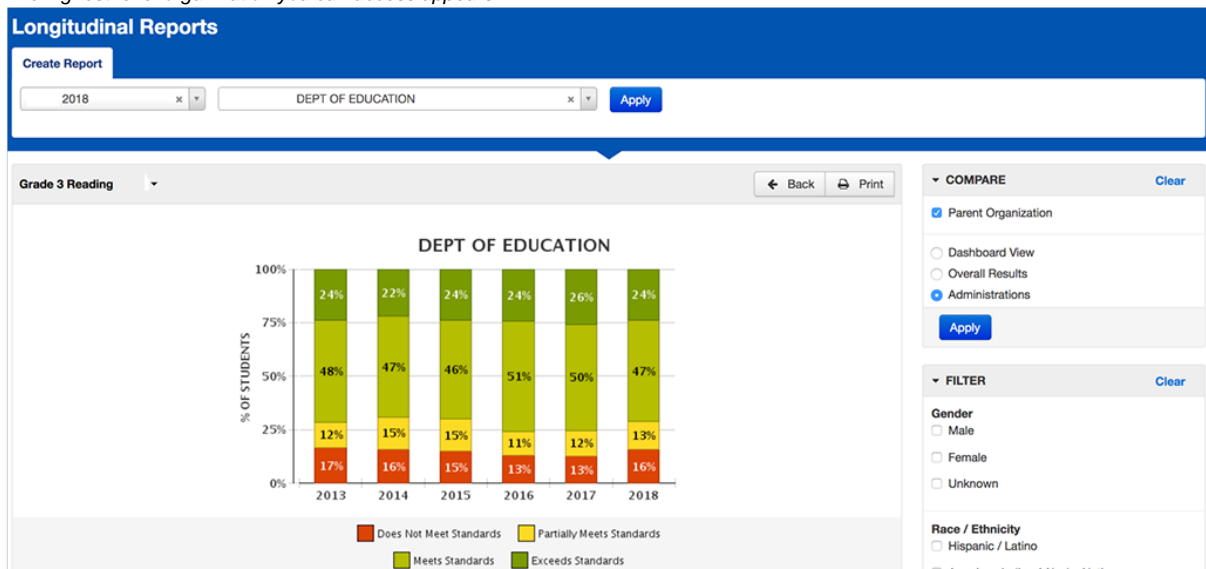

Available data varies by user role and permissions.

Step-by-Step

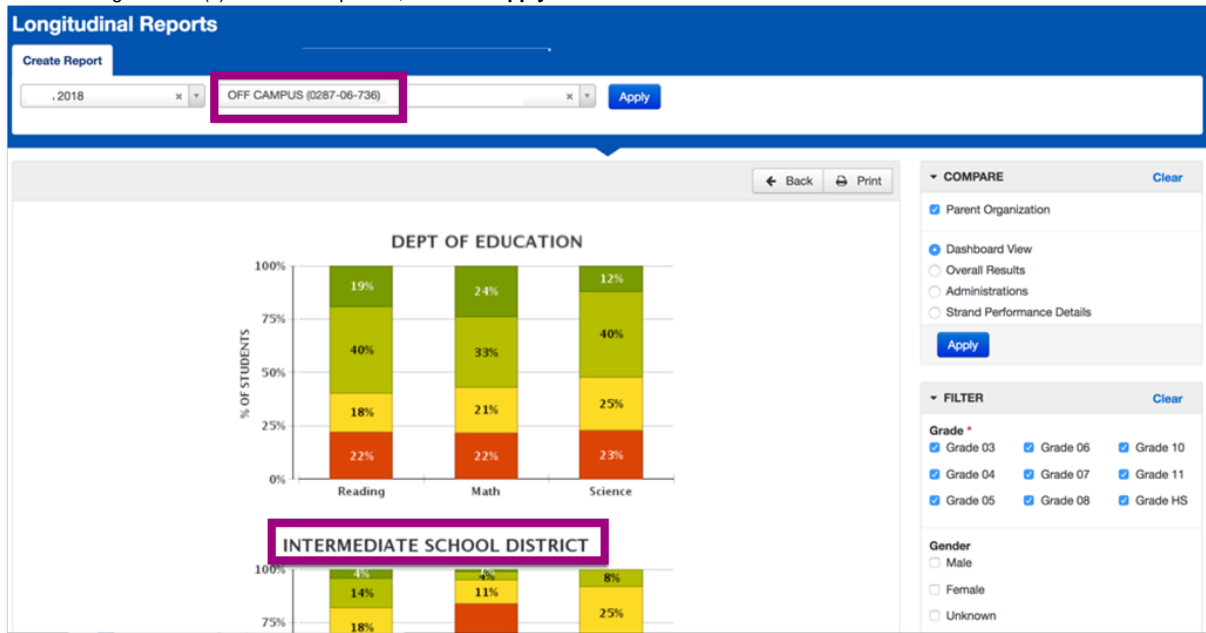

1. From **Reports**, select **Longitudinal Reports**.

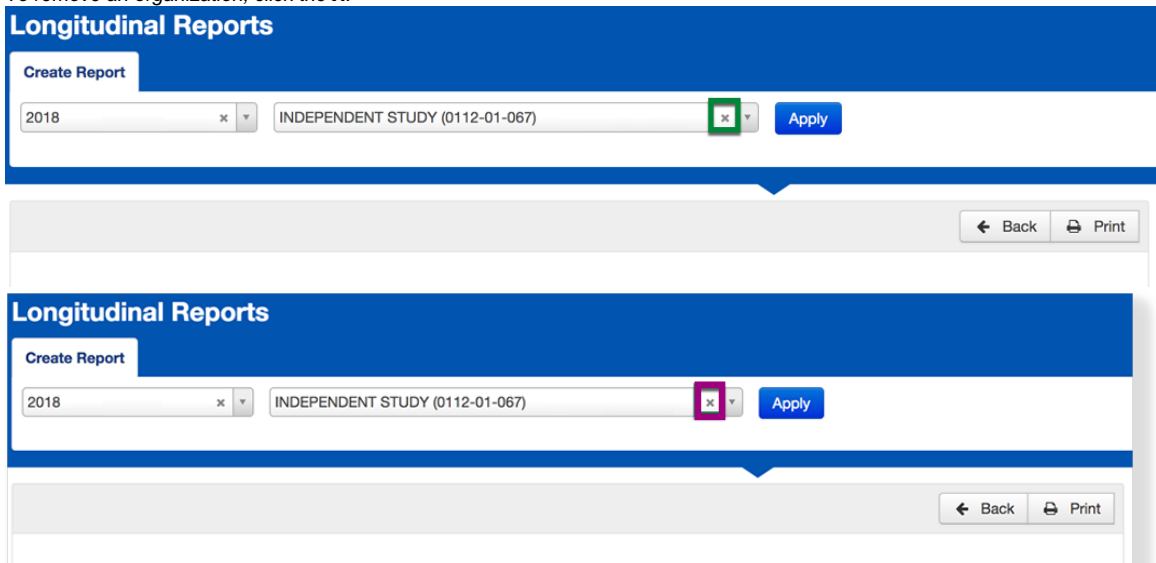

The highest-level organization you can access appears.

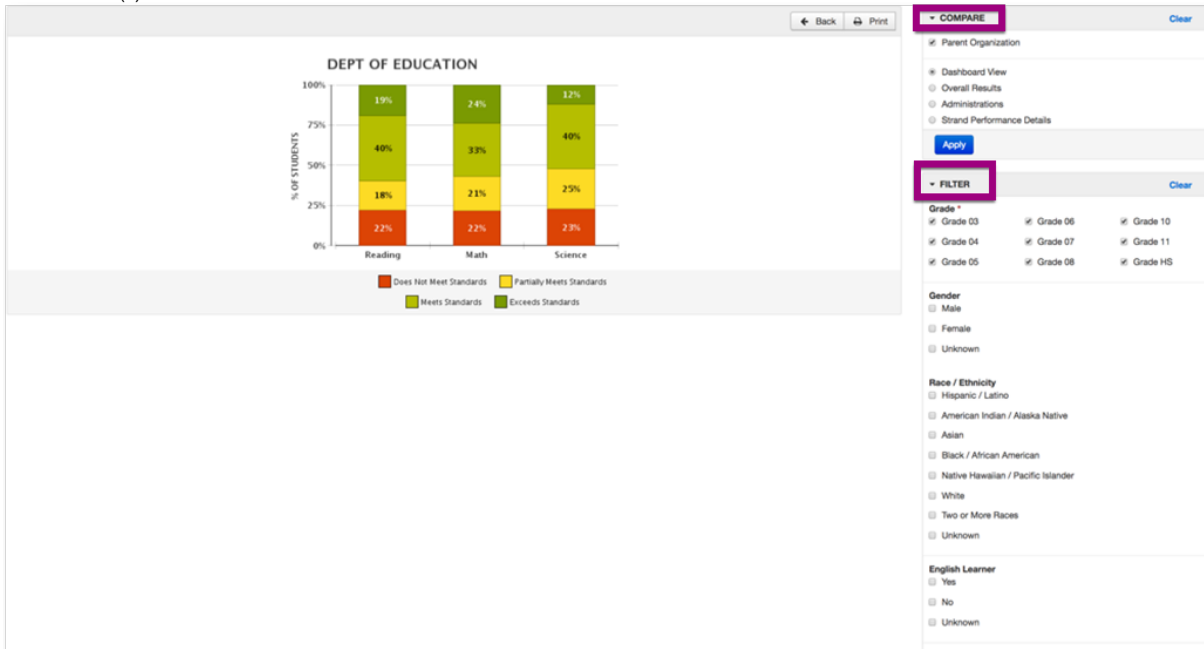

2. Select an organization(s) from the dropdown, and click **Apply**.

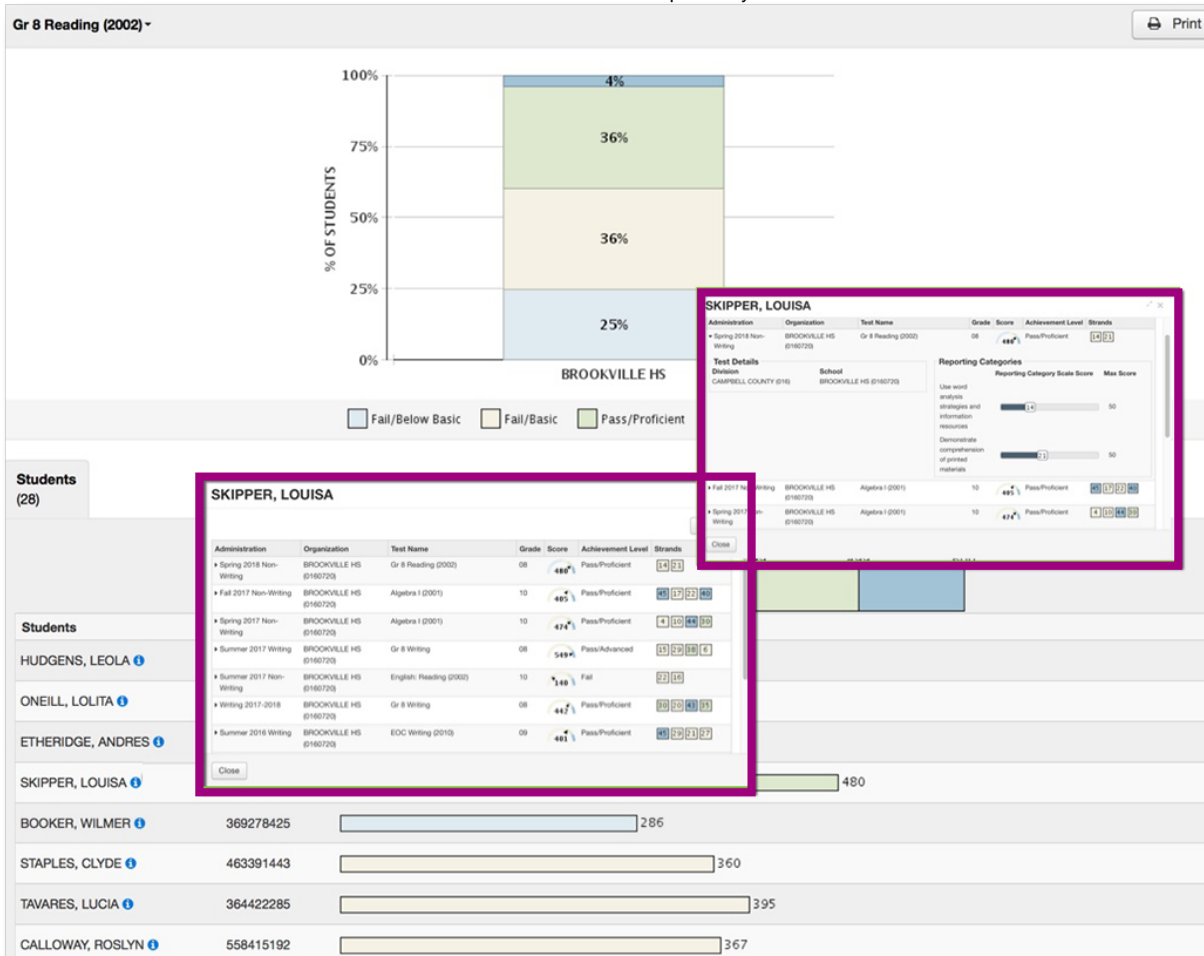

- a. To remove an organization, click the **X**.

3. Select a filter(s) to limit data available.

4. Click the information icon next to a student name to drill down to more in depth analysis of how the student achieved the scores.

5. Click **Print** to download a PDF version of the reports. *The PDFs display the filters selected and include only filtered data.*
