

Manage Student Enrollments in an Organization

You can manage student enrollments to register a student in another organization(s) or to remove the student from an organization.

Most students belong to only one organization (generally the student's school); however, some students change schools, and for testing, belong to more than one organization.

The screenshot shows a web interface for managing a student's enrollments. At the top, the title is "Demo Student (387626679)". Below the title is a dropdown menu set to "Demo Placement 2017-2018". A horizontal tab bar contains several tabs: "Details", "Organization Enrollments" (which is selected), "Test Administration Registration", "Student Tests", "Sessions", and "Reporting Groups - Registration". Below the tabs, there is a list of organizations: "INT School Two (222001)", "INT School Five (555001)", and "INT School One (111111)". At the bottom left of the interface is a "Close" button.

To view enrollments, click the information icon next to the student's name. Then, click the **Organization Enrollments** tab to see the organizations in which the student is enrolled.
