

Import or Export TestNav Configurations

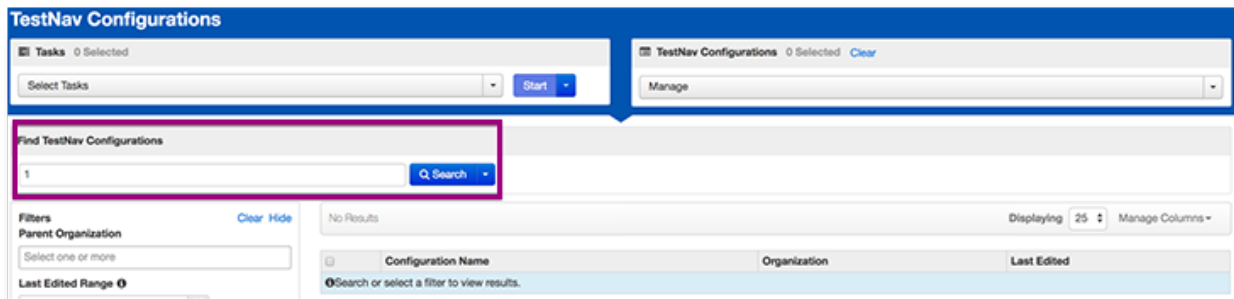

You can import and export TestNav configurations to easily set up configurations in the system.

Step-by-Step

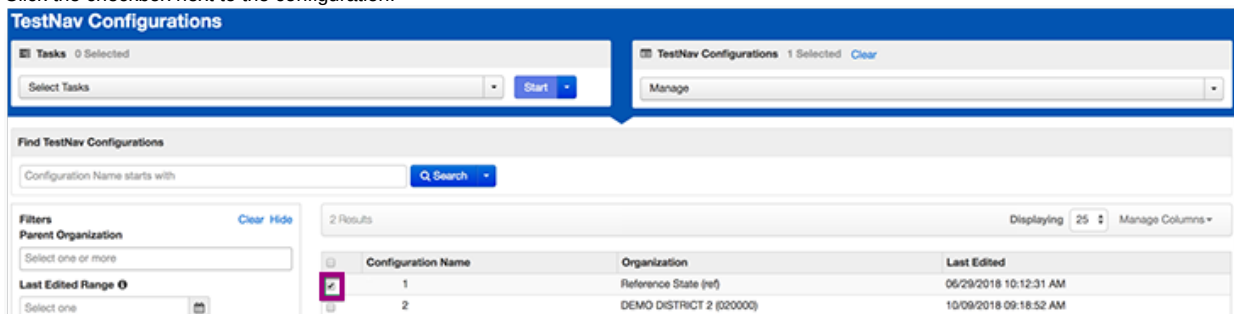

1. From **Setup**, select **TestNav Configurations**.

2. Type a configuration name into the search field, and click **Search**.

3. Click the checkbox next to the configuration.

4. Click **Select Tasks**, select **Import / Export TestNav Configurations**, and click **Start**.

TestNav Configurations

Tasks 1 Selected

Select Tasks Start

- ☐ Create / Edit TestNav Configurations
- ☐ Delete TestNav Configurations
- ☒ Import/Export TestNav Configurations

Configuration Name starts with Q Search

5. Click the **Action** dropdown, and select **Import** or **Export**.

+ Import/Export Testnav Configuration

Action

- ☒ Import
- ☐ Export

6. Click **Import** or **Export**, as appropriate.

+ Import/Export Testnav Configuration

Action

Export

Configuration Name	Organization	Proctor Caching Computers
1	Reference State(s)	School 1 Computer () School 2 Computer ()

Generate a comma separated value (CSV) file that contains TestNav configuration(s).

Export

To avoid a possible timeout, Pearson recommends that you do not import/export over 300 TestNav configurations at a time.
