TestNav System Requirement Policy

Published: March 25, 2020

Pearson is committed to aligning TestNav system requirements with manufacturer-supported operating systems (OSs), devices, and browsers. This best practice ensures that all district personnel and students experience efficient and reliable testing sessions. This policy also positively reflects Pearson's pledge to effectively serve current and future customers.

Departments of education/districts can use the policy below to determine technology needs for each upcoming school year.

Policy by OS

OS	Based on manufacturer support, Pearson will support:	Resources
macOS	The two past releases as of July 15.	N/A
iPadOS	The two past releases as of July 15.	Apple Life Cycle Management
ChromeOS	Releases Google supports as of July 15 of the current calendar school year.	• Chrome OS Release Schedule • Chrome Update Policy
Windows	Releases Microsoft supports as of July 15 of the current calendar school year.	Windows lifecycle FAQ
Ubuntu/Fedora	The last two long-term releases.	N/A

See **Upcoming Support Changes** in TestNav System Requirements for annual details.
