

Sign In to TestNav through Student Portal

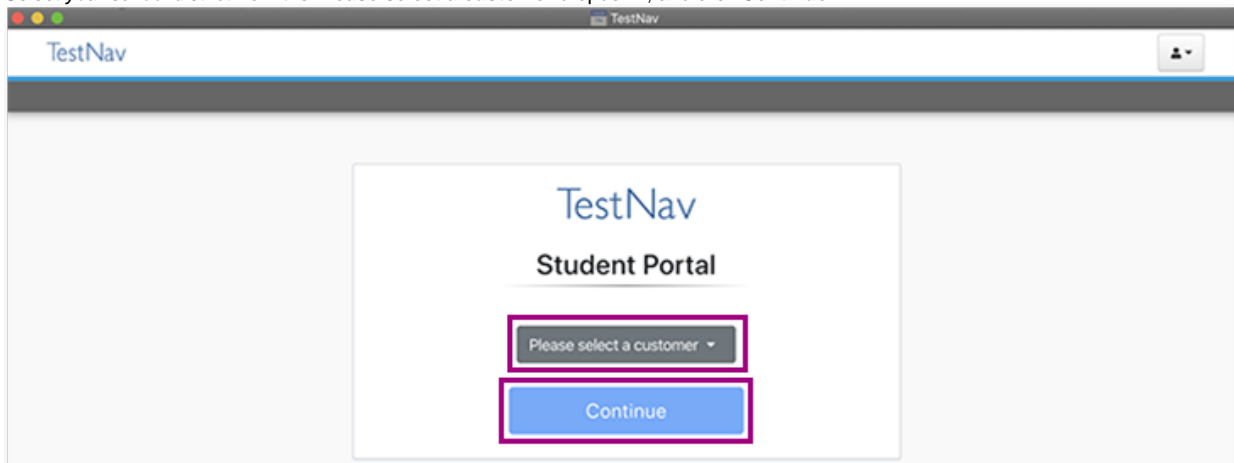

Student Portal provides single sign-on (SSO) access to TestNav for students. With SSO, students can quickly navigate to their assigned tests and begin testing. *If your school uses **Student Portal***, student email addresses were previously entered into Pearson Access (either through a [data import](#) or [data creation](#)) to give each student portal access.

Step-by-Step Access for Students

1. Go to the **TestNav** home page in one of two ways:
 - **Recommended** - Click (or tap) the **TestNav** app icon. If you have not downloaded the TestNav app, see [Access TestNav on your Home Computer or Device](#).
 - If you must access TestNav through a browser, go to home.testnav.com (*ONLY supported for non-secure, interim or practice tests*).
2. Click (or tap) **Student Portal**.

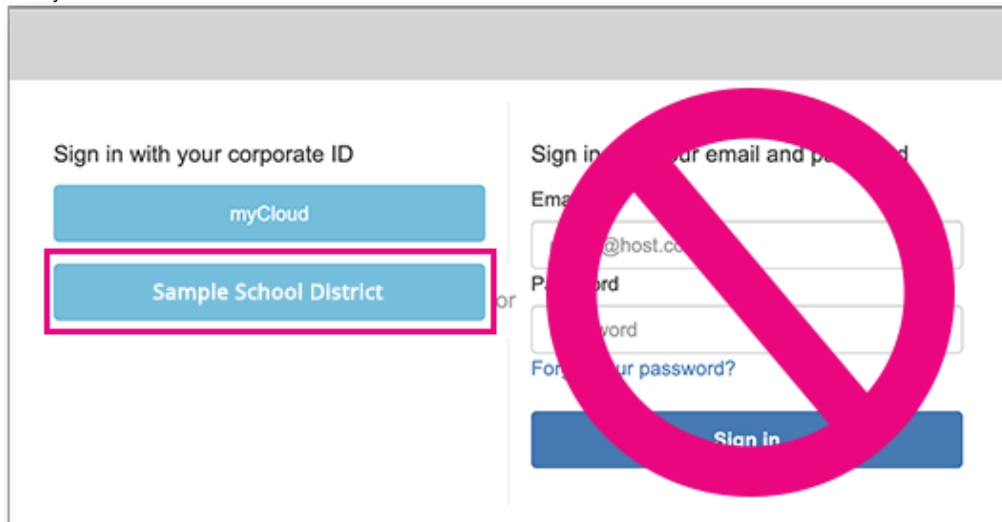

3. Select *your school district* from the **Please select a customer** dropdown, and click **Continue**.

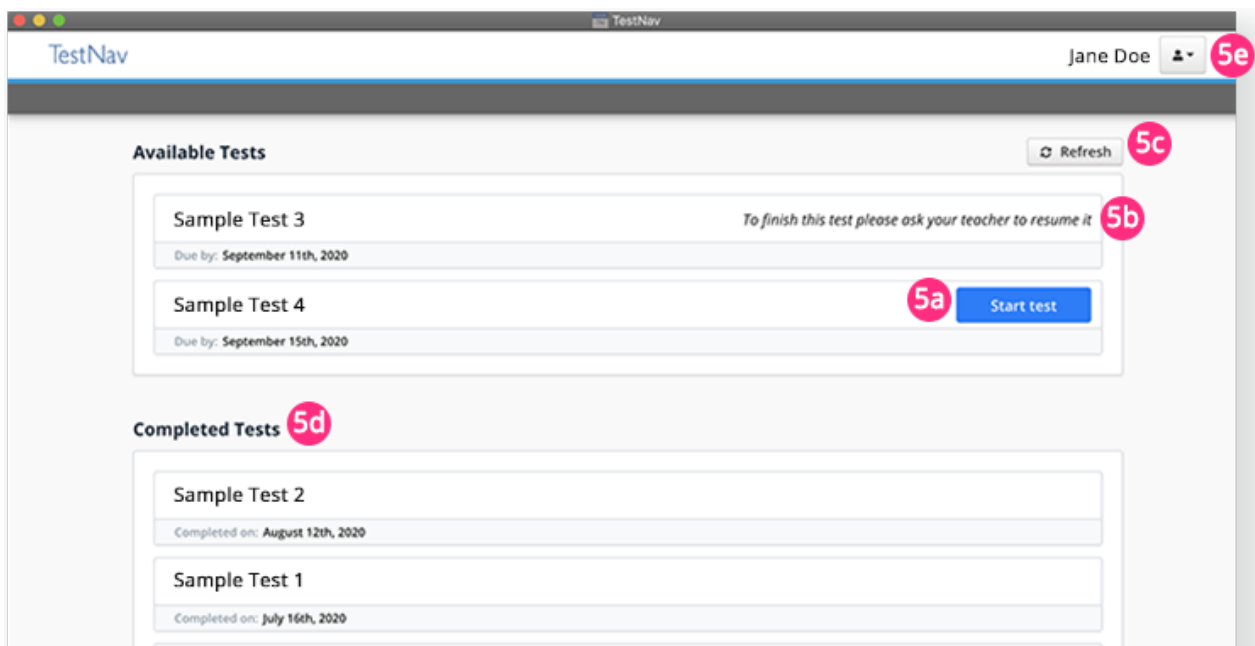

The screenshot shows the TestNav Student Portal login page. At the top, there is a header with the TestNav logo and a user profile icon. The main content area features the TestNav logo and the text "Student Portal". Below this, there is a dropdown menu labeled "Please select a customer" and a blue "Continue" button. Both the dropdown menu and the "Continue" button are highlighted with a red rectangular box.

4. Click your school district's button.

The screenshot shows the TestNav login page. On the left, under the heading "Sign in with your corporate ID", there are two buttons: "myCloud" and "Sample School District". The "Sample School District" button is highlighted with a red rectangular box. On the right, under the heading "Sign in with your email and password", there are fields for "Email" and "Password", and a "Sign In" button. A large red "X" is overlaid on the "Email" and "Password" fields, indicating that these fields are not to be used for login.

5. Enter your username and password to sign in. Click **Start test** to begin an available test.
You can also navigate through other elements of the Tests page. See callouts below:

5a - You can click a **Start test** button to begin that test. Below each test name, the due date appears, if applicable.

5b - If you have any tests that you did not complete, but can resume, a note appears, reminding you to ask your teacher to resume it.

5c - You can click the **Refresh** button after your teacher resumes your test to see the **Start test** button for the resumed test.

5d - The **Completed Tests** list shows tests that you completed and the date you completed them.

5e - You can click the user dropdown and select **Log Out** to log out of Student Portal.

Student Portal does not sign you out unless you click the user dropdown and select **Log Out** or if you close TestNav.

If you do not actively move or click your mouse for an extended time, an inactivity error appears and takes you back to the Tests page. You may see a note for that test, indicating that your teacher must resume your test (see 5b above).
