

TestNav 2021-2022 school year system requirement changes

Technical Bulletin

Published June 3, 2021

What is happening?

Pearson plans to **drop** and **add** support for the operating system (OS) versions below for the **upcoming 2021-2022 school year**.

Dropping Support	
OS	Versions
macOS	10.13
iOS	12
Chrome	83-90
Windows	<ul style="list-style-type: none">• 7• 8, 8.1• 10 versions 1903 and older• 32-bit versions
Linux	Fedora 28
Android*	9.x
Adding Support	
OS	Versions
Chrome	91
macOS	Apple silicon (ARM64)
Windows 10	x64 - 20H2, 21H1
Linux	Fedora 33
Android*	11

What do I need to do (and how do I do it)?

Technology personnel should evaluate manufacturer support **as of July 15** to determine technology planning for each upcoming school year. *The [TestNav System Requirement Policy](#) can help districts estimate support for the upcoming school year.*

** for low-stakes tests only*
